Family Handbook 2025

Updated: 2/19/2025

Staff List

Director: Britney Nelson

Assistant Director: Rebecca Sicocan

Pre-K Facilitators: Rebecca Sicocan / Alyssa Rawson

Toddler Facilitators: Kendra Marsh / Lahela Tillenburg

Wobbly Facilitators: Zarina Rogers / Willow Drake

Itty Bitty Facilitators: Karen Perez / Gloria Estrada

Float Facilitators: Karina Risinger / Sarah Bridgewater / Nohemi Perez

Director Phone Number: 458-600-8353

Board of Directors:

Erika Spaet (Co-Chair), Becca Ellis (Co-Chair), Casey Lamont (Secretary), Tom Hall, Jessica Petkun

Fire & Medical Emergency Care: 911

Poison Control: (800) 222-1222

How to **report a complaint to The Office of Child Care** regarding ReVillage's center requirements: An individual wishing to register a complaint against a provider who is providing child care may call the Office of Child Care's Central Office at 1-800-556-6616. The licensing specialist will take your information and follow up on your complaint.

For more information and to access more info about your certified provider, go to **oregonearlylearning.com**. Here you will be able to access the Child Care Safety Portal.

The Child Care Safety Portal is a resource for parents and families to check on the safety and quality of licensed child care programs in Oregon. The Portal lets you search for a child care provider and view their licensing history over a period of time.

Introduction

Welcome to ReVillage! We are thrilled to have you and your child join our community and are looking forward to supporting your journey with us, the best way we can.

ReVillage at Grace First Church

ReVillage is a non-profit, play-based childcare co-operative (parents / caregivers are involved in the program which creates a strong community, high quality, affordable child care option) hosted inside of Grace First Lutheran Church. While located inside a church we do not have any religious teachings as a part of our program. We currently meet **Monday - Friday 8am-5pm**. Our Program is designed to encourage purposeful play where our lead facilitators guide children through age appropriate learning experiences that prepare them with the knowledge they need to be confident as they grow. Our lead facilitators are supported daily by participating parents / caregivers that are a part of the ReVillage program. These parents / caregivers are considered facilitator's aides and are trained and qualified while acting as a support staff helping the lead facilitator with play based learning and exploring.

Our Mission, Vision, & Work

Mission: ReVillage works to ensure that *all* Central Oregon families--across income, race, language, orientation & identity, and background--have the care and opportunity they need to thrive in work and in play by cultivating affordable, accessible, equitable childcare cooperatives; empowering parents; cultivating community; and advocating for system-wide, family-friendly practices and policies.

Vision: We imagine (and work toward) a world in which *all* families have the community support and access to care they need in order to thrive in work and play.

Our Work:

- Develop “villages” for children ages 0-5 in Central Oregon in which parents act as teacher’s aides and are highly engaged in their child’s care, offering affordable, accessible, nurturing care that closes the opportunity gap and helps address Central Oregon’s childcare “desert”
- Develop a play-centric childcare ethos in which parents are highly engaged and children are nurtured
- Offer families the opportunity to learn play-based care (and other parent skills) alongside trained professionals
- Facilitate spaces for families to develop deep bonds of friendship and interdependence
- Accompany families who might otherwise not have access to quality

- childcare--especially working families
 - Continue to learn and act on ways that dismantle systems of inequity and oppression in our systems that put up barriers to child and parent/caregiver thriving
 - Utilize underused buildings in Bend and Central Oregon, primarily church buildings
 - Partner across sector (education, business, non-profit, faith communities) to build networks of advocacy and systems change
- Organize and empower families and parent leaders to advocate for statewide and city-wide policies that contribute to the wellbeing and thriving of Oregon families.

Philosophy of Learning

ReVillage's philosophy is built upon an image of children as curious and creative members of our society. We have the understanding that children learn through their time in play. We honor each child's right to have a voice, to be heard, to feel, to try again and again, to develop relationships, to have ownership over themselves and the right to be in a caring, supportive environment. Our classroom community serves as a safe and secure environment for children to develop a sense of belonging. We allow children to act creatively and independently in play experiences daily. We strive to maintain an environment conducive to uninhibited play. In accordance with our foundational belief in play, we include academics through play.

We strive for inclusivity for all children by recognizing racial, ethnic and cultural diversity and seeking to accommodate children with all abilities.

Relationships

ReVillage desires to build a community of vibrant relationships that provide children with a strong trusting model of social inclusion and participation. It is important that the children realize they are a connected, important part of the co-op family. Relationships will be strengthened by open communication and respectful dialogue. ReVillage will continue building on the power and presence of family within the daily life of the center. We recognize parents / caregivers as the child's first and most important teacher and seek their advice, collaboration and participation as we facilitate their child's education. We are creating a different type of school than the standard American daycare. We are a place for families to come together as part of a community and for children to have a safe and supportive environment to immerse themselves in the joys of childhood while having parents / caregivers alongside one another.

Co-Oping

ReVillage began as a parent / caregiver -led co-op. Now, as a full time program, we are a "co-op lite" with both paid, licensed facilitators & daily parent / caregiver participation. Co-oping allows the parent / caregiver to be involved in their children's care on a regular basis. By working in the classroom, family members, immediate and extended, contribute their special skills to our community, opening a completely new range of expertise to the children. Any skill that a parent / caregiver or extended family member has that will benefit the center is always welcome. Working in the classroom, reading a story to your child and some of her/his friends lets your child know that the co-op is an extension of their own family home. The co-oping parents' own

parenting skills are enhanced through the observation of the diverse caregiving styles of the other parents and staff. By playing and working at the co-op, parents / caregivers know their child's facilitators and daily life. Parents / caregivers, children and staff all share a sense of empowerment through participation. Each voice is valued.

Commitment Details

Families are asked to commit to a minimum 3-month participation with a set, 8 hours a month of "giving" childcare, as well as a mandatory monthly meeting, which will be offered outside of working hours so parents/caregivers are able to attend. Parents / caregivers co-op by giving an agreed upon 8 hours of time in the center per month. They are considered "facilitator aides." Families will be scheduled for two 4 hour shifts each month, from 8:30am to 12:30pm for a total of 8 hours per month, per child. Families of part-time children in our program commit to 4 hours per month. This is in the form of 2 - 2 hour shifts or 1 - 4 hour shift per month. We realize that some families have daily tasks that make it challenging to give 8 hours at the center. In these situations, families ask grandparents, aunts and other relatives to become a part of our trained program to be able to give time in lieu of the parent / caregiver. All parents and caregivers that are "giving" time must complete a background check, CPR & First Aid training, other mandatory safety training and a day of orientation prior to starting the program.

Missed Aide Shift:

In the case in which a family cannot fulfill their aide shift on a particular day, they are required to find a replacement or a trade with another family. If this is not possible, caregivers must make up their shift within 30 days. If an ongoing situation emerges in which you cannot aide in the classroom, please be in conversation with our director to discern if ReVillage is the best fit for your family or if there are other options available for contributing your time toward the classroom.

Family Engagement

Families representatives attend our monthly ReVillage meeting held once a month, however, all family members are welcome to join in! This will be held in person at one of our centers. This is an important time for all families to get together and vital for all family representatives to participate. Meetings will be a place to discuss child development topics centered around play based learning and ideas / topics that relate to better serving the families at ReVillage. It is integral that all family representatives attend the monthly meetings to ensure that they have the skills and knowledge needed to be a quality aide in the center.

Certain months, we will use our monthly meeting as a potluck and each family will be invited to bring a dish to share or a family meet up in a local park.

During these meetings, we would love feedback, ideas, and suggestions from all families involved in the co-op to continue to grow in community and better serve all families.

Classroom Management Application Policy:

ProCare is our classroom management tool application. Parents or Legal Guardians will have access to their child's profile and will be entered as a parent. Other family members can be

added as additional pick-ups, but will not be permitted the same access as parents. It is the Parent/Legal Guardian's responsibility to communicate information to other family members/authorized pickup individuals as needed.

Open Door Policy

We have an open door policy for all families. Each family a part of the program will be given a door code that is able to access the building Monday-Friday 8am-5pm. Family representatives that are background checked and cleared to "give time" in the classroom that would like to be in the classroom more than their required 8 hours a month can absolutely come in at any point. We love the extra helping hands and for families to play alongside their kids!

For the family members that aren't cleared in our background checking procedures that still want to come in, you can absolutely come for a visit! You can come in to read a book, share a story, eat lunch with your kid, or just come say hi! As a visiting family member, you will remain within sight and sound for the entirety of your visit while in the classroom and be sure to sign in and out of our visitor log when you visit.

Written Visitor Plan

In no instance will adults who are not registered in the Central Background Registry have unsupervised access to children while in ReVillage care. ReVillage is housed within a larger facility with a number of employees who do not work directly with children, as well as various building visitors whose background is unknown. Due to this, ReVillage staff is committed to taking the following precautions to make sure all children are accounted for and safe in all situations:

- Center door will remain closed and locked (from outside) after drop-off (8:00AM - 9:30AM) until pick-up (when picking up inside). If children are dropped off at a later time, family members/caregivers will be asked to call the center for access to drop off the child.
- All visitors to the center will be recorded by signing in using the visitor sign-in sheet located in the classroom.
- When using the restroom or changing diapers, staff will always be present and directly supervising or assisting with children. When using the hallway bathroom, staff will ensure the bathroom is unoccupied before allowing children to enter.
- In the event of an emergency/natural disaster/evacuation drill, staff will follow emergency procedures to make sure children are accounted for and kept safe until given the "all clear" to return to the classroom or picked up by approved adults.
- No child shall be unsupervised on a telephone call while in ReVillage care. ● When walking in hallways or outdoors to the fenced playground area, staff will walk closely with children and use a walking rope to aid in keeping children together and accounted for at all times.

ReVillage will reference and evaluate this plan as needed.

Enrollment and Tuition

At ReVillage, we enroll as slots become available and are aligned with our classroom needs and demands. When a slot becomes available we refer to our waitlist on a first come, first serve basis. Once you have been extended an invitation to claim a slot with us, you will have 1 week to confirm and submit enrollment paperwork, unless an alternative plan has been previously discussed and approved by the director.

To hold a spot for your child, you will be expected to continue tuition payment and family aide hours each month, regardless of the child's attendance. Holding a spot could occur in the following scenarios, but not limited to:

- A child is not old enough for the classroom slot available, but was next in line for a slot
- A child will be attending the program a limited amount of time or not at all, but will resume full care at a later time

If a family is holding a slot in our program and fails to fulfill the expectations as listed in this policy, the family will be notified. If not corrected, their slot will be forfeited.

If your child is currently enrolled in our program and your family has another child that you would like to join our program they will be given priority to others on our waitlist. A parent or guardian is responsible for filling out the waitlist form so that the administrative team is aware.

Tuition & Payment Policy

All payment and fee processing will be completed by the ReVillage director via ProCare App via Gusto. They will be in charge of collecting tuition and other fees and contacting families regarding payment issues. If you have a question or concern regarding a payment or fee, please contact the ReVillage director.

Tuition Rates

Full-Time Rate:

Pre - K - \$1250 per month

Toddler - \$1550 per month

Wobbly - \$1850 per month

Itty Bitty - \$1850 per month

Part-Time Rate (if slots are available): Ask Director for details/options

Please note that scholarships are available if needed

No credits are given for sick or vacation days, holidays, staff training closure or closure due to inclement weather.

Payment

Payment is always due monthly by 11:59 PM on the 5th of the month with no deduction for any absences, holidays, or closures due to inclement weather, power outages, or other situations beyond our control.

Methods of Payment

Families can pay by automatic electronic funds transfer or credit card. To set up automatic recurring payments, please use the ProCare App to set up a method of payment.

Late Payment Charges

Late payments can pose serious problems for our programs and as a result, the organization does not have the latitude to allow families to accrue a balance equal to more than one month of tuition. Late payments will result in the imposition of late payment fees.

If payment is not received on the day that it is due, a \$25 late fee will be added to your account. For every 5 days payment is not received, an additional \$15 will be charged to your account. If you are not able to make your tuition payment by the following month, our Director will be in contact with you to work on the next steps. Repeated late payments will result in your family being required to set up automatic payments or credit card payments.

Any payments made will be applied to the oldest charges and late fees may still apply if the account is not paid in full by the next tuition due date.

All rejected ACH (automatic debits) or credit card transactions will be charged a fee of \$30. This charge may be collected electronically. Two or more returned checks or rejected transactions will result in your account being placed on "cash only" status.

Late Pick-up Fee:

We cannot accommodate late pickups (past our operating hours). A late fee of \$10 will be assessed for the first 5 min, then an additional \$2/min fee will be assessed until time of pick-up, this fee will be due upon arrival. Repeated late pick up may result in child care services being terminated.

30 Day Notice Policy:

An advance notice of 30 days is required upon the decision to drop your child from care at ReVillage. If you fail to provide an advance 30 day notice, you will still be required to pay your tuition for 30 days after your verbal or written notice, or after your child's last day of attendance.

Arrival and Departure Procedures

1. Our regular operating hours are: 8 AM - 5 PM Monday through Friday.
2. Parents / Caregivers will drop off their children no earlier than 8 AM and pick up their child no later than 5 PM. Our morning drop off takes place between 8 AM and 9:30 AM. If you have appointments or other conflicting obligations which prevent you from dropping off before 9:30 AM, please let staff know ahead of time to make other arrangements.
se notify staff through Procure or call the ReVillage staff phone (458-836-9267) .
4. Each child will only be dismissed to a verified adult previously authorized for pick up.

Drop Off:

- Parents / Caregivers will be asked to bring their child through the main entrance of Grace First. Parents will be given a parent code for the door, allowing access to the building from 8am-5pm M-F.
- Before you leave, a staff member will have you sign on a classroom phone or tablet to ensure our records for attendance are accurate.

Pick Up:

- Typical pick-up times are 3pm-5pm. Please let your child's teacher know if you need to pick up your child outside of this timeframe.
- Children will only be allowed to go home with approved adults documented by the family and center.
- Before you leave, a staff member will have you sign on a classroom phone or tablet to ensure you have picked up your child for the day.

Center Environment

“If there is no choice, it is not play” -Lisa Murphy

Aides, facilitators and staff are controlling the environment, not the child. Aides & facilitators work to maintain, promote and develop a nurturing, play based environment that contributes to each child's:

Social / Emotional Development

We provide a safe and secure environment where participation and learning can happen at each child's unique social developmental level. Our focus on supporting social/emotional development is less focused on correcting and more focused on modeling and supporting.

“At the core of social/emotional development is empathy. Remember, empathy is developmental.”

em·pa·thy
/ˈempəTHē/

noun: **empathy**

the ability to understand and share the feelings of another.

- Children of preschool age are developing this ability. We absolutely desire that they develop empathy, but forcing socially expected empathetic words does not foster this development. Based on this understanding, some of our practices are outside of the social norm, and we hope to assist parents / caregivers in progressing along with us in that regard.
- We do not ask children to say “I’m sorry,” and we ask that you do the same. If you tell your child to apologize to someone, you are essentially encouraging them to speak an untruth. The fact of the matter is, your child may very well not be sorry, and you telling them to say that they are will not make them sorry. In other words, you can make your child say the words “I’m sorry.” but you can not make them mean the words. Do not attempt to force feelings of remorse on a child by demanding “I’m sorry.”
- We do not force children to share, and we ask that you don’t either. Again, you could potentially force sharing, but this does not create empathy in the child, which is at the root of the practice of sharing. Unfortunately when a child is forced to share, the trusted grown up is forcing the child to have something taken from them. This is not instilling generosity. Forced sharing tends to communicate to the child “the world can take what it wants from you when it wants it.” In turn we see this play out as children who feel they have a right to take what they want from others (the child thinks “because children are expected to share...she must share with me”). We end up with entitlement instead of generosity.
- The social aspect of play helps children build friendships and learn how to cooperate and work together. It offers opportunities for them to learn to resolve conflict.

- We guide children through conflicts over mutually desired items, spaces, etc. by encouraging independent expression of desire for them and encouraging it to be played out through child-directed turn taking.
 - “Let me know when you’re done with the _____.”
 - “Let me know when I can join you in _____.”
 - “I’ll let you know when I’m done with it.”
 - “We will let you know when we are ready for you to come in.”

-Adapted from Bloom Children’s Center

- Playing with others also helps children establish a sense of self. They can initiate play and make decisions, which empowers them to become confident and motivated learners.
- Creating art in a play-based learning environment exposes children to process vs product-focused art. Process-focused art experiences have no rules and no examples to guide the children. There is no right or wrong way to create. Meanwhile, product-focused art is based on instructions and guided by examples the facilitator makes. In this type of art, there is a ‘right’ and ‘wrong’ way to create. Process focused art benefits children by allowing them to express their feelings or ideas the way they want to and they feel successful no matter what they make.

Motor Development

- Motor skills development refers to how a child uses their body. Through play, children build muscle mass and coordination, explore different tactile experiences, and get a healthy amount of exercise.
- Children are provided long periods of uninterrupted free time to explore their environment inside and out while using their whole body and all of their senses. ● Art and play expose children to different tactile experiences. They learn about the feeling of wooden blocks, soft plush toys, wet paint, and more.
- Children build muscle mass and coordination as they practice how they can jump, climb, swing, run, throw, squeeze, grasp, build, arrange, spin, dance, and move during uninterrupted play.
- Aides can observe children immersed in motor development and provide more opportunities to continue exploration.
- Some incidents will occur while children continue to develop motor skills that we adults may think of as not so great. This could include throwing hard objects. While we don’t want to tell a child they *cannot* throw because that would be developmentally inappropriate, aides and facilitators can provide a different opportunity to throw such as balls outside, beanbags inside, pillows, etc. Remember, the adults are controlling the environment, not the children.

Cognitive Development

- Cognitive development is a child’s growing ability to use their intellect to process information. It includes problem-solving, language learning, and the interpretation of sensations.

- When children play, they use their imagination. Imagination is all about symbols: a laundry basket symbolizes a car, a stick symbolizes a fishing rod, and so on. Understanding symbols is key to reading and writing, as letters are symbols. The same goes for mathematical concepts and numbers.
- During dramatic play, children use language to talk to each other. They represent and act out stories, practicing their language and storytelling skills.
- Children develop an elementary understanding of scientific concepts as they learn how the world around them works. For example, what happens when you stack one block on top of another or what the feathers of a bird feel like.
- Aides and facilitators will support cognitive development by providing space and invitations to play that engages the child's whole brain.

How do you know if it's play based learning?

Play-based learning is a type of early childhood education based on child-led and open-ended play. It is child-centered. Play itself is a voluntary, enjoyable activity with no purpose or end goal. Play-based learning helps children develop social skills, motivation to learn, and even language and numeracy skills. Taking initiative, focused attention, and curiosity about the world are all a part of play.

Elements of play based learning include:

- **Self chosen:** A child voluntarily chooses to play, how they'll play, and for how long. An adult may initiate play insofar as he or she invites or suggests play but the child determines the rest.
- **Enjoyable:** Play is enjoyable for the child. This emotional aspect is important. There may be some frustrations or disagreements during play but overall it's pleasurable. ●
- **Unstructured:** A child has ample time to explore and discover during play. They're directed by their own interests, not by any prescribed rules or plans.
- **Process-oriented:** There is no end or learning goal. Instead, it's the process of play that's important.
- **Make believe:** Play often involves imagination, 'make believe,' or 'playing pretend.'

Yearly Conferences

The ReVillage facilitators meet with each family twice a year in April and October to have our bi-annual “conference” about each child. It is during this meeting that the facilitators show family members their child’s portfolio. This portfolio consists of pictures, observations of play and learning that took place throughout the year, different scribbles (did you know there are 80 types of scribbles before a child begins to write?) and other prints or art the child wanted to put in his / her “fancy” notebook. Facilitators will share progress and insights they’ve witnessed from the child and will have a conversation about the child’s interests, preferences, and development. During this conversation families will also be encouraged to fill out their child’s Ages and Stages form to see if there’s any area of development that could be encouraged at the center.

There isn’t specifically a “goal” at the end of the conference. We believe in process over product and that includes the process of development. There isn’t an end goal, only the hope and wish that ReVillage can provide a deep, nurturing place for your child to thrive through play based learning. This is an ongoing conversation! Meaning that even though we schedule a conference once a year, we hope that families feel welcome to ask questions and share information about the child to better assist in their development all year long.

ASQs and Additional, Specialized Support

The ReVillage facilitators will have each family fill out an Ages and Stages Questionnaire (ASQs) upon entering into the program as well as two other times a year. This form is to get a sense of where your child is, developmentally, so the facilitators can better meet the needs of your child. If at any point you have any developmental concerns either when filling out the ASQ or throughout your child’s time at ReVillage, chat with one of the facilitators. They can make a referral to a specialist in Central Oregon that can address your concerns with development, behavior, speech or hearing. We also partner with Inclusion Partners here in Bend that provide specialists to come into the classroom with parent permission to make observations if needed. This ensures that all of your child’s needs are being met.

Immunization Policy

ReVillage will follow the State of Oregon’s recommendations regarding immunizations. This means your child is required to be up to date on all immunizations, have a written Dr. note stating your child is on a delayed immunization schedule, or have Exemptions from the state of Oregon. ReVillage is required to have these documents on site in your child’s file upon entering our program.

Guidance of Behavior Policy

While toddlers and preschoolers are developing, we will see some unwanted behaviors come up. The behaviors may look “unwanted” to us but a child wanting to bite, throw, yell, or run is all a part of their development. It’s important to ensure that although it’s totally typical for a child to be exhibiting this behavior, we want to make sure it’s not hurting anyone. We do not tolerate hurtful or harmful behavior. While staying attuned to each child’s development, sometimes we can anticipate a behavior and plan accordingly before a conflict arises. Other times, staff work as guides to listen, acknowledge, problem solve, and support each child through the conflict resolution process.

Behavioral Support/Student Safety

All ReVillage staff will follow the behavioral and guidance policy to navigate challenging behaviors in the classroom. In instances where a child’s behavior becomes increasingly escalated, if a child uses repeated physical aggression towards another child or staff member or begins throwing materials, staff members will take the following steps to help de-escalate the situation:

- Engage the behavior with curiosity and try to understand what may be causing the behavior
- Connect with the child by helping them to label how they are feeling and listening to and validating their feelings
- Work with the child to find a solution
- We help the children in our program identify and adhere to clear boundaries set by each other.
- We do not apply punitive discipline (positive or negative) in response to any child’s behavior.
- We keep the moral issues out of developmental ones. We don’t say “how would you like that?” if the situation doesn’t call for that.
- We believe that any and all behaviors and conflicts must be approached as problems with the potential to be solved. Our role as adults is to support children in finding a solution to each problem. Said solution must be one that each party involved in the conflict finds to be reasonable.
- We work diligently to diffuse emotionally charged conflict among children. 6. We want our children to become well-versed at using voice and at hearing another person’s voice and honoring it.

An example of this would be

If a child is throwing blocks, first we respond by recognizing the VERB. “I see that you are wanting to *throw*...” Second, we remind: “... when we throw hard things like blocks, it can hurt others, and people are not for hurting.” Finally, we redirect: “... let’s find something soft to throw instead... or let’s throw pinecones or balls outside” “What *can* we throw?”

If the throwing urge continues, we can:

- Offer different throwing choices
- Provide more trajectory play invitations for throwing.
- Remove harsh throwing items for the classroom
- Begin to observe the behavior before it is executed
- Model for the children: “Ouch! When you throw that at me, it hurts! I do not like that.” “My body needs space.”

In instances where there is an immediate risk of physical harm to the child or other children, staff members may assist the child to another room or area of the classroom. In these instances, staff members will first communicate to the child and give them the option to walk with the teacher or have the teacher pick them up. Before a staff member picks up a child, they will first tell the child.

If a child is unwilling to transition to another area, staff members will refrain from restraining a child or physically removing them against their own will. Instead, staff members will ensure that there are no safety risks to the child and, if necessary, evacuate the other children from the area.

Staff members will only pick up/restrain a child in extreme cases when there is an immediate risk of harm to the child or other children. In these instances, a staff member trained in safe restraint techniques will assist the child. If this occurs, parents and ReVillage’s state licenser will be contacted immediately after and notified of the steps taken to help the child in this situation.

In instances where a child displays repeated physical aggression towards other children or staff members, parents will be contacted.

If a child continues to be physically aggressive and staff members are unable to help the child regulate, a staff member will ask parents to pick up the child early.

- * Asking a parent to pick up their child early is always a last resort at ReVillage. However, staff will use their best judgment in these situations to ensure the safety of all children.

ReVillage is committed to our mission of creating a safe and healthy environment for all children to thrive. In instances when a child causes physical harm to others or poses a safety risk to children and staff, ReVillage will use every strategy and resource available to help children co-regulate in times of emotional distress. If unsafe behaviors continue, ReVillage will work with families and community partners to find the best solution for the individual child. If your child is unable to be regulated in this environment causing continuation of harm to self, other children and staff ReVillage will ask the family to pick up your child. This is a last option for our staff to provide a safe environment for all.

Daily Rhythm

8:00 AM - Center Opens

- Children play indoors and out (with materials including but not limited to blocks, art materials, easels, books & stories, puzzles, sensory tubs, music, writing tools, playdough and clay, dress-up, manipulatives, loose parts, obstacle courses, sand and water, and large-motor equipment that encourages climbing, throwing, running, and swinging)
- Snack time is offered throughout the day as children are hungry.
- Lunch and rest times are provided in the middle of the day, but if someone is sleepy at another time, we are accommodating.
- Children continue their indoor and outdoor play

5:00 PM - Center Closes, See you tomorrow!

- Operating hours are from 8:00 am - 5:00 pm each day
- Children will each have a different rhythm for eating, napping, and playing. We will be attuned to the needs of each child and support each need however it flows throughout the day.
- Circle time is an invitation for songs, sharing of any news, fingerplays, and a couple of stories. Circle time is optional for all children.
- Please ensure that your child comes to the center with appropriate clothes to be comfortable outside based on that day's forecast.
- Each day, children will be encourage to *PLAY* through these 6 outlets.
 1. Create, 2. Move, 3. Sing, 4. Discuss, 5. Observe, 6. Read

Notice: custodial parents / guardians have access to the center during the hours of operation and without advance notice.

Quiet Time

1. Each child will be given the opportunity to rest on their mat each day. This mat will be placed on the floor, with two feet distance between other children that are placed head to toe.
2. The lighting will be off with soft, soothing music playing. For the children not napping, they will be invited to bring a few books or quiet bins to their mats for quiet time that will last from 30 minutes to 2 hours depending on the child. We will never force a child to sleep.
3. Each child can bring one child sized blanket, one small pillow and one small stuffed animal.
4. Mats will be covered by a center provided fitted sheet that will be stored in each child's individual cubby. These fitted sheets will be laundered at the end of each week.

5. Blankets and pillows will go home at the end of each week to be laundered and brought back on Monday.

Daily Schedule

8:00-9:30 Drop Off
8:00-9:30 Morning Activities/Free Play
8:30-9:00 Morning Snack
9:30-9:45 Circle Time
9:45-11:20 Outdoor Play
11:30-12:00 Lunch

3:00-3:30 Afternoon Snack
3:30-5:00 Outdoor/Active Play
3:30-5:00 Pick Up

Parent Aide Responsibilities

You are a teacher's aide... which is far more than just a warm body in the classroom. You are an integral part of this co-op model. Because of you, your presence, your curiosity, and your passion we can continue and deepen the high quality care in our classroom!

Your Hours: Monday, Tuesday, Wednesday, Thursday, or Friday 8:30 am-12:30 pm, twice a month. (8 hours minimum)

Your Break: You will receive a 15 minute break during your shift. Please save all personal cell phone use until this time. We know emergencies come up and if you need to take a call or answer a message sooner than your given break, please communicate with us and we can accommodate. Just a reminder that we are a screen free classroom. Lead teachers will be using tablets, a computer, and occasionally personal cell phones for ProCare use and communication with families.

You'll Bring: You will bring with you your ability to be present to all children and your curiosity.

Your Role, Duties, and Responsibilities

You are supporting, engaging with, and monitoring **10 children** at a time to ensure our 1:10 adult to child ratio. When you're in the classroom, more than likely (and totally normal!) your child will want to play with you. Just keep in mind that while you are playing with your child, you are aware and mindful of 4 other children ensuring they have all their needs met as well.

Supporting children looks like:

1. Asking questions to see what they are interested in. "What are you playing with? What's your plan with that? What other supplies do you need?"
2. Following their curiosity. "What do you notice? How does that feather feel? What do you think is going to happen next? What do you think? What else do you need?"
3. Providing them needed materials. "Do you need more glue? Tape? Paint? Paper? Fabric? Etc. What if we added more flour?"
4. Helping children problem solve when conflict arises. "What happened? What are you feeling? Let's check in with the other child together to see what he/she needs. How can we problem solve this?"

Engaging with children looks like:

1. Ensuring that every child is experiencing the “6 outlets of play”. This includes, reading, creating, moving their bodies, observing, discussing, and singing!
2. If you are providing space and materials for one of the outlets above to happen then you are engaging children!
3. Some children want to engage with you and others will want to engage in the 6 outlets of play either by themselves or with their peers. All are appropriate.

Monitoring children looks like:

1. Sitting with children while they are eating. There needs to be one adult present at all times sitting at the table with children if at least one child is eating.
2. Helping children learn self help skills like putting their own lunchbox and water bottle away, zipping and buttoning their jackets and clothes, washing hands. Using handrails when walking. Etc.
3. Checking in with children that use the toilet if they need to use the potty.
4. Seeing if they have everything they need.

Your Role Cont.

You are assisting the teachers/facilitators with play invitations, setting up and resetting tables and spaces with materials and supplies, helping with transitions, and cleaning the classroom.

Helping with play invitations:

1. When arriving, teachers will have activities or play invitations set out for the children to engage in throughout the room. You will post up at one of the areas in the room and assist children while asking open ended questions.
2. See if children need other materials out. If you need to add a scoop to the sensory table, or balls to the block area depending on children’s interest levels and the need to deepen their play.

Helping with resetting tables and spaces:

1. When children are finished with a certain play invitation, you will clean the table or floor area and reset it with a different play invite of your choosing.
2. If children are done gluing at the art area, you could bring out water colors, stamps, paint with sponges, etc. The possibilities are endless. You will just be attuned to what the children are interested in and follow their lead with bringing out a new play invitation and resetting the table or area.

Helping with transitions:

1. When children are ready to go outside or inside, you will help with the transition by taking a head count of all children to ensure everyone is accounted for. You will also position yourself in the group to make sure that one adult is leading, one is in the middle of the pack, and one is at the end of the group to ensure that everyone arrives at the destination safely and accounted for.

Cleaning the classroom:

1. When children are immersed in play, we take note of what the children are finished using and simply clean as they go. If a child is dumping things deliberately (which is

developmentally appropriate for some kids), explain, “you can dump out the box of blocks again AND you will help me clean it up afterwards”. Or “let’s find something that you CAN dump out.” Or if a child is scooping beans out of the sensory table on purpose after the reminder of “we keep the beans inside the sensory bin” then say “let’s go get a broom to clean that up together”. Most often than not, the adults are the main ones cleaning the room, unless it’s a natural consequence for the child to clean. Also, feel free to bring out little dust brooms or an extra rag. Sometimes when children see us cleaning, it can be another play invitation for them to explore what it’s like to wipe a table or sweep up some beans.

2. Only adults will use the labeled sanitizer bottle for tables, chairs, walls, toys, and other surfaces. Let children wipe with soap and water with a rag if there is interest or a natural consequence.

Entering the classroom for your shift

1. **Store your belongings in the office.** If you have a bag, purse or jacket, it must go into the office. Licensing states that any staff personal belongings must be stored out of reach from children. Please be sure that pocket knives or weapons of any sort are not in the building.
2. **Wash hands, yours and your child’s hands** and ensure that all children entering the classroom are washing hands prior to playing at the center.
3. **If you’re bringing a hot beverage in,** make sure that it is in a sealed container (air tight lid, not from a coffee shop) and stored on the teacher counter out of reach from all children. Licensing states hot beverages shall not be consumed around children. You can sip from it while at the counter briefly and reseal it when finished, leaving it on the counter.
4. Once settled, **ask the teachers where you can post up for the morning.** There are generally 4 areas inside our indoor space. The sensory area, the creating / art area, floor and movement area, and the science area. The teachers will likely see an area that may need more monitoring and will have you ‘post up’ there. This does not mean that you are glued to this area only but are monitoring the area while children are present. For example: if the teachers would like for you to post up at the sensory area and help with slime making, you will stay near this area assisting children. You will be assisting with washing hands after kids use the slime, assisting children by keeping the slime in the sensory table, finding and adding in different scoops or funnels depending on what they are interested in doing with the slime, and cleaning up once the kids seem finished with the slime.
5. If you notice a child sitting at the table ready to eat, make sure an adult is sitting with the child and is present to him/her through the entirety of eating.
6. Please keep adult conversations limited to ensure mindful attention to each child.
7. Ask the teacher! If at any point you need clarity, don’t hesitate to ask!
8. Once the play area that you’ve been working at is ‘finished’ or all the kids have moved on, **you may reset the area for a new play invitation.** First, clean up the play area. Then gather your supplies for a new play invitation. This new play invitation comes from two different sources: what the children seem interested in and your brain! Just gather the supplies that you need (you can always check with the teachers the day prior to make sure we have everything you need for your play invite) and reset the play area with a new invite that you are in charge of. A list of examples are attached below.
9. You may also be asked to help set up a **play invitation outside** especially as the days

are warmer and we spent 3+ hours outside, most of our play invitations will be outdoors. Anything that we can do indoors, can be done outdoors.

10. You will help with transitions from outside to inside and inside to outside. 11. You will assist teachers with providing children with long periods of uninterrupted free time to explore their environment, ensuring that each child will have time outside. 12. You will help ensure that all children have access to all of the centers / areas in their classroom. This includes but is not limited to blocks, art materials, easels, books, puzzles, sensory tubs, music, writing tools, playdough, dress-up, manipulatives and loose parts with very few restrictions. 13. You will provide opportunities for each child to create, move, sing, discuss, observe, read, and play each and every day.

The facilitators (teachers) will be working alongside you each day. Facilitators are available to explain specific tasks that can be completed throughout the day while modeling appropriate, attentive behavior in the classroom. Facilitators will have an open and supportive dialog with all aides that shows each voice is valued and heard. Please ask questions to ensure that we are providing quality care to all children.

Other responsibilities:

1. Aides will maintain strict confidentiality regarding sensitive information about our students, and respect the privacy of families. While giving time at the center, a teacher may inform you of a child's situation or give you information about a child so we can better support this child. This information is to remain confidential and should not be shared with anyone.
2. Aides will attend 1 hour monthly meetings that relate to play based learning, equity, anti-racism & being child centered. The one hour monthly meetings are a way to connect and continue our learning to ensure we are continuing quality care in the classroom.
3. Aides will complete all annual training paid for by ReVillage. .
4. Aides are in charge of finding a replacement for an upcoming absence with another family representative. If an emergency occurs and you are not able to make it to your shift, please contact the director immediately.

Play Invitation Examples:

Outside Ideas:

Water play, sprinklers, planting / weeding, books outside, red light green light, parachute, hoops, over the ocean, simon says, follow the leader, obstacle course, paint rocks & pinecones, catapult bean bags, snowshoes, bird feeders, rope bridge, shaving cream on plexiglass easel, gardening, nature hunt, paint snow, magnifying glasses, picture frames with nature collage in it like rocks and sticks, car wash of toys, mud kitchen, texture stamps, bubbles, binoculars, tracing shadows, hammer, nails, screws, straw bales with ladder across, mud pit, sound garden, weaving fabric through fence, water pump, sand dig with hidden treasures, smash with mallet, long jump marking with tape, ant hills.

Sensory Area Ideas:

Water, sand, wash pumpkins, wash dolls, cloud dough, kinetic sand, cocoa mulch, rice, beans, clay, snow, flubber, shaving cream, shredded paper, easter grass, small world play, funnels,

coffee oobleck, oobleck, shave soap with cheese grater, jello, leaves, acorns, twigs, pinecones, marbles, cardboard tubes, beads and string, spaghetti, curling ribbons, shells, wood pieces, sand paper, pillow stuffing, buttons and string, separate bowls, pipettes, vinegar and baking soda, playdough, turkey basters with water, zen garden, tongs and corks, sink or float, flour and baby oil, oats, glue loose parts, shaving cream with blocks, magnet wands with magnets in water, safflower seed, bird seed, wash rocks, corn kernels, sort materials, loose parts, corn meal.

Art Area Ideas:

Card making station, free paint, buddha paper, treasure maps, magazines, loose art materials feathers, googly eyes, equines, newspapers, tp tubes, line table with paper, stamps, color mixing, shapes in playdough, drill painting, feather painting, potato painting, apple painting, finger paint, hang frame and have kids make art in it, carrot painting, condensed milk paint, markers, pencils, crayons, window crayons, contact paper up and items stick to it.

Note on arts vs crafts:

Crafts are generally seen by adults as 'art'. However, art is an intrinsic form of creative expression. Anything led by a teacher with parameters and an end product in mind is not intrinsic.

Crafts usually have an end result with children all making the same looking turtle or bunny rabbit. It is process art as long as it doesn't have a desired end product or "what it should look like" when the child is finished.

Movement / Open Space Area:

Puppet theater, hair salon, doctor / vet clinic, blocks, 180 things to add to block area on pinterest, cozy room, tinkering room, farm, tape spider web, obstacle course, Reggio loose parts, boxes, parachute, reading stage where they can read to stuffed animals, winter wonderland, pop up tunnel, add to dress up, put chairs together to make a bus, dance party.

Science / Nature Area:

Light table, sensory jars, cotton balls with different scents on them, sorting living and non living figurines, memory game, mystery box, color sort, texture sort, "find me something shiny" game, magnet exploration, using scales, puzzles, loose parts, etc.

Just a reminder that YOU bring your own gifts, talents and interests just by being you. Feel free to bring a part of you and your family into the classroom as well!

Technology in the Classroom Policy

ReVillage holds a screen free environment for the children in our care. Employees will access and add notes to ProCare reports through personal cell phones and computers and will do so in a manner that ensures the screen use is always away from children, never at eye level or on tables, chairs, or furniture where children are present. Computers and cell phone use in the classroom should only be for ProCare use, music / meditation sounds, and to communicate with staff/carers. All other admin, email, and technology tasks should take place during scheduled prep time.

Record Keeping

1. Using the ProCare management software, ReVillage staff will use the classroom tablet (or personal cell-phone) to check in/out children.
2. Please use the ProCare app to communicate with teachers during operation hours.
3. Please ensure that all your contact information on ProCare is accurate.

Food and Nutrition

1. Each child will bring their own lunch daily. A healthy snack will be provided by ReVillage. Please provide a grain, protein, veggie, and a fruit in your child's lunch. Milk will be offered for each child at the center. We offer whole cow's milk for children ages 1-2 and 2% cow's milk for children ages 2-6. If parents / caregivers would like to provide an alternative milk for their child, they are required to provide it to the center in a labeled container. If alternative milk is being used, ReVillage needs a note from the child's medical provider stating the type of milk and the reason why (this is a requirement from licensing).
2. Each family will bring a labeled water bottle for their child every day. This will be sent home each day to be washed.
3. If a child has a known food allergy, parents/caregivers must let the center know and complete an allergy action plan form.
4. Teachers and aides will wash their hands before and after assisting children with eating.
5. We will allow breastfeeding parents / caregivers or those whose children have special feeding needs to enter the program for the purposes of feeding.
6. We ask all lunches to be on ice packs or room stable. We do not have access to put all lunches in a fridge. We also do not have the ability to warm lunches, please provide your child with lunches that do not have to be heated.

Toilet Training

The most important factor in making the toilet learning experience successful and as low-stress as possible is a family/teacher partnership that supports the child. Research indicates that children cannot successfully learn how to use the toilet until they are physically, psychologically, and emotionally ready. Many pediatricians say that most children under 24 months of age are not physically capable of regulating bladder and bowel muscles. Most positive toilet training occurs only after children show signs of physical control or awareness of their bodily functions and when they demonstrate an interest or curiosity in the process. We are committed to working with you to make sure that toilet learning is carried out in a manner that is consistent with your child's physical and emotional abilities and your family's concerns.

At ReVillage, we support all children in their potty training journey. We will facilitate child led potty training and work in partnership with parents and caregivers to ensure that each child is provided

support in the classroom while potty training. While we will always encourage children to use the toilet, we will never force a child to use the toilet while transitioning from diapers.

Each child is an individual and develops at his or her own rate. There is no set age at which potty training should begin. The right time depends on the physical and emotional readiness. It is important that the child be ready *before* training begins. This is usually between the ages of two and three years and sometimes even later. If training is started before the child is ready, training will be more difficult and take longer.

A child must be able to control the muscles that regulate the bowel and bladder to be toilet trained. Knowing how to get to the potty or toilet and undress quickly is also important.

A child must be emotionally ready. He or she needs to be willing and cooperative, not fighting or showing signs of fear. If a child protests vigorously to potty training, it may be best to wait for a while. It may also be best to delay toilet training if a child is experiencing stress such as a family move, a new baby in the family, a major illness or a big change in a child's routine (such as starting a new childcare program).

The following signs may indicate that a child is ready to begin training:

- The child remains dry at least two hours at a time during the day or is dry after naps.
- Bowel movements become regular and predictable.
- Facial expressions, posture or words reveal that a bowel movement or urination is about to occur.
- The child can follow simple verbal instructions.
- The child seems uncomfortable with soiled diapers and wants to be changed.
- The child asks to use the toilet or potty.

When a child shows signs of readiness and the parents are ready to begin toilet training at home, the parent and classroom staff will discuss plans to begin toilet training. Communication between staff and family is very important during this time. Parents and teachers need to discuss what words will be used to describe body parts, urine and bowel movements, what type of training pants the child will wear and the routine at home and childcare for taking the child to the potty.

Clothing/Underwear When Potty- Training

If you believe your child is ready to begin potty training, we ask that you dress your child in loose fitting clothing or pants with elastic bands so they are able to pull their pants down independently. We also ask that your child wears underwear when beginning potty training. Wearing underwear will help contain bodily fluids and reduce contamination.

Accident Procedures

Accidents are just part of the journey of potty training. When a child has an accident, teachers will use it as a learning experience and will not shame the child for having an accident. Staff will follow our "Soiled Clothing/Rags Policy" and send the soiled clothing to be washed at home.

If a child has 4 or more accidents in one day, staff will communicate with parents and caregivers and discuss if the child is truly ready to begin potty training, or if they need more time. If accidents continue at a high frequency, ReVillage staff will put your child in diapers for the remainder of the day until the child has fewer accidents or shows readiness to be potty trained. Even if your child is in diapers, staff will continue to offer and encourage use of the toilet at each diaper change.

Field Trips/Outdoor Play/Nap Time

When a child is at the beginning of their potty training journey, staff will use their best judgment to determine if a child needs to wear a pull-up or diaper when taking a field trip or playing on the playground. While we want to avoid this as much as possible, we must also consider the health and safety of all of the children. If access to a bathroom/changing table is not readily available on a field trip, or if all teachers must stay on the playground to stay in ratio during outdoor play, staff may use their best judgment to put the child in a pull-up or diaper. If this occurs, staff will notify parents and remove the pull-up or diaper immediately upon arriving back at the classroom.

Staff will communicate openly with parents about their child's needs and ability to control their bladder/bowels when they are sleeping. If needed, staff will place children in pull-ups or diapers during rest time and remove it once the child wakes up.

2025 – School Closures and Important Dates

New Year's Day/No School: Wednesday, January 1st, 2025

Martin Luther King Jr. Day: Monday, January 20th, 2025

Presidents Day: Monday, February 17th, 2025

Spring Break: Monday, March 24th, 2025 – Friday, March 28th, 2025

Parent-Teacher Conferences: Friday Afternoons, April 4th, 2025, and April 18th, 2025
(by appointment)

Staff training: Friday April 25th, 2025

Memorial Day: Monday, May 26th, 2025

Juneteenth Observed: Thursday, June 19th, 2025

Summer Break/Independence Day: June 30th, 2025 - Friday, July 4th, 2025

In-service/No School: Monday, August 25th, 2023 – Friday, August 29th, 2024

Labor Day: Monday, September 1st, 2025

Parent-Teacher Conferences: Friday Afternoons, October 3rd, 2025, and October 17th,
2025 (by appointment)

Indigenous Peoples Day/Inservice Day: Monday, October 13th, 2025

Veterans Day: Tuesday, November 11th, 2025

Thanksgiving Break: Monday, November 24th, - Friday, November 28th, 2025

2025 Christmas Break: Monday, December 22nd, - Friday, December 26th, 2025

In-Service/No School: Friday January 2nd, 2026

Family Co-Op Meetings

Our family Co-op meetings are an important aspect of our Co-op model. During these meetings we will discuss important updates, problem solve, provide parent education, and connect together. As part of your parent commitment, we ask that you participate in as many family meetings as possible. Family meetings will be hosted inside of Grace First from 5:00pm-5:45pm. Meetings will be hosted bi-monthly and families will be notified of meetings 1 month in advance.

Field Trip Policy

Our location at Bend Church is right in the middle of some great parks, fields, and nature areas all within walking distance. All children at the center will be taken on walking field trips via hand holding ropes as planned by the head facilitators. Children must hold rope at all times while walking to and from field trips. At cross walks, if there is a free adult available, one adult must walk in front of the group to ensure traffic stops and the group crosses safely. Families will be notified at least ***24 hours prior*** to a change in our weekly nature walk / field trip schedule. Families will be notified what time the walking trip will take place, when they are departing from the center, and when they plan on returning. A field trip permission form will need to be filled out prior to the field trip. One permission form is valid for the entire year.

During the field trip:

- All children will wear a neon vest provided by ReVillage to wear during the nature walk / field trip that will allow for improved visibility for facilitators.
- Facilitators will have an emergency phone on hand which will allow for families to call if need be. This phone number will be given out to families prior to the field trip. ● Facilitators will carry an emergency backpack, any medications needed, and the tablet with emergency contact information + medical release forms.

Field trips will only be for approved locations listed below:

-**Discovery Park** 1315 NW Discovery Drive, Bend, OR 97701

Left onto NW Silas, right onto NW Lemhi Pass Drive

- **Compass Park** 2500 NW Crossing Dr, Bend, OR 97701

Left onto NW Silas, right onto NW Sacagawea Lane, left onto NW Meriweather Place, right onto NW Crossing Drive

Health & Safety

Inclement Weather Policy

If the outside temperature is at 20 degrees fahrenheit or lower, or 95 degrees fahrenheit or higher, children will not play outdoors. When the temperature is between 20-30 degrees fahrenheit and 85-95 degrees fahrenheit, the classroom will implement a 20 minutes outside and then 20 minutes inside protocol.

At ReVillage, we will follow Bend-LaPine School District's decisions in regards to any inclement weather closures or delays.

Air Quality Policy

Using OregonSmoke.gov, if the smoke level is passed the moderate level of smoke or an AQI of 100+, children will remain inside. There will be an indoor gross motor invitation for children to enjoy and move their whole bodies. Children will also be able to use a pre approved alternative room for gross motor activities.

Accident & Incident Reports

Policy:

At Revillage, if a child is injured a teacher will complete an accident form. If a child has recurring instances of injuring other children, incident forms may be filled out for family notification.

If a more severe injury occurs, all staff are trained in pediatric CPR and First Aid and will be able to complete an assessment of the injury and call emergency responders if needed. Staff will notify guardians as soon as they are able to.

Procedure:

First aid supplies are available in the center for minor accidents. ReVillage will use *only* ice, cold water compresses, and bandages as children may have allergies to Neosporin or other ointments.

The classroom will always have our Incident/Accident forms. They will be filled out to the best of the staff's knowledge based on the scenario. The form will be signed by a supervisor prior to the child leaving that day. A guardian will also sign the form at the time of pick-up. Once all signatures are completed on the form, a staff member will give the carbon copy (yellow) to the family member for their records and keep the white copy for ReVillage records. The staff will then file the white copy of the form in their director file in the classroom's filing unit. The director will check the file regularly to complete this procedure by filing the form in the child's filing records.

If responding to a more serious injury, where a child may need to be seen by a medical professional, staff will notify guardians by phone as soon as they can after the injury occurred.

Minor Injuries or Illness

- First aid supplies are available in the center for minor accidents under the teacher counter in the kitchenette. Use only ice, cold water compresses, and bandages as children may have allergies to Neosporin or other ointments. The parent / caregiver of the injured child should be told of the injury when they come for their child and an injury report should be filled out.
- If a child becomes ill while in the center's care, a parent / caregiver aide should remove the sick child from proximity to other children, while keeping him/her within sight and hearing distance of an adult. ReVillage staff should notify the parent/caregiver and ask them to pick up the ill child as soon as possible.
- In order to ensure the health & safety of our students & staff we have guidelines in place for illness or potential illness, contagious or otherwise. We follow strict sanitizing and disinfecting procedures to maintain the health of our classroom, students and staff, but illness is inevitable.
- Any children with the following symptoms will not be admitted into the classroom or if they develop symptoms while at the center, ReVillage staff will call for the child displaying symptoms to be picked up by their caregiver:
 - Fever over 100.4 degrees F
 - Diarrhea (more than one abnormally loose, runny, watery or bloody stool)
 - Vomiting;
 - Nausea;
 - Severe cough;
 - Unusual yellow color to skin or eyes;
 - Skin or eye lesions or rashes that are severe, weeping, or pus-filled;
 - Stiff neck and headache with one or more of the symptoms listed above;
 - Difficult breathing or abnormal wheezing;
 - Complaints of severe pain.

If a child develops mild cold symptoms that do not impair his/her functioning, the child may remain in the center and their caregiver notified of their condition when they pick up their child.

COVID: Any child or staff member, regardless of vaccination status, should be excluded from the program if they exhibit COVID-19 symptoms including: new loss of taste or smell, fever (100.4 or higher), new cough, or shortness of breath in the last 10 days.

Emergencies

- If there is a life-threatening emergency, we will call 911 immediately (911 will be called prior to calling a parent / guardian).
- We will contact both the parent / caregiver and the director as soon as possible. • We will keep the affected child(ren), as well as the other children in the room as safe as possible.

Fire

- In case of a fire, please quickly gather children and proceed to the nearest exit (as posted on wall), gathering in the designated area. Full evacuation plans will be followed, as written in our Emergency Procedure Handbook.
- There will be a fire drill held monthly.

Fire Drills

At ReVillage, a fire drill will be practiced monthly. Classroom teachers and acting Director will guide children through our procedure.

Social Media

Adults participating at ReVillage are prohibited to take, post, or share photos of children and other adults at the center.

Reporting Suspected Child Abuse

Reported suspected child abuse by calling 1-855-503-SAFE (7233). The **Oregon Child Abuse** Hotline is available 24/7. All staff (and family members “giving time” as an Aide 1”) are mandated reporters.

The ReVillage director is responsible for the proper recording and reporting of all incidents to the Director of Children and Family at First Presbyterian.

Thank you!

Thank you for reading through this.

We appreciate you and are grateful that you have chosen to be a part of our ReVillage family community!
